

Ideation Phase

Empathize & Discover

Date	31 January 2025
Team ID	LTVIP2025TMID56890
Project Name	House Hunt
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Example: House Hunt

Thinks	Feels	Feels	Does
Is this house within my budget? Will I be happy here? What are the schools like? Are there any parks in this area?	Hopeful about finding home Disappointed about unsuitable properties	Hopeful about choices Overwhelmed by choices Disappointed by properties	I'm looking for a three-bedroom house What are the property taxes? What are the property apps? Negotiating a viewing?

Says

I'm looking for a three-bedroom house

What are the property taxes?

Can we schedule a viewing?

Does

Using real estate agents

Using real estate websites

Organizing a viewing

Proposing to the seller

Attending an open house

Pains

Finding place within budget

Competitive bidding wars

Dealing with unreliable agents

Long commute times

Property condition issues

Property condition issues

Gains

Owning a home

Creating a family space

Building of community

Increased or community

Increased property value

Improved Quality life

Stability
